**CIRCULAR**

**Sub: Roll out of NCERT WLAN -regarding.**

CRC has installed a WLAN network and it is now available for the users of NCERT network. WLAN is add-on facility over the LAN network and the Wi-Fi signals are covering most of the common areas of all the buildings.

Currently this Wi-Fi network with the name "NCERTWIFI" is available for the users of NCERT network. A separate methodology will be introduced later for guest users of NCERT.

The **procedure for connecting Wi-Fi is available overleaf**. In order to access the internet, users are required to authenticate themselves by providing the credentials (user ID and Password) provided to the users who have submitted the form "Registration form for Internet" at Computer Resource Centre.

For any clarification while connecting the Wi-Fi, users may contact CRC.

This issues with the approval of the Competent Authority.
