Leadership is a practical skill encompassing the ability of an individual or organization to "lead" or guide other individuals, teams, or entire organizations. The Principal as a school leader dons many hats being an administrator, facilitator, motivator and liaison officer between the school and the higher ups.

School leadership and management is one of the key aspects for quality improvement and attaining learning outcomes as stressed by many centrally sponsored schemes and Integrated framework of Samagra Shiksha.

The dimension of leadership in schools has moved beyond literacy, numeracy and graduating from school to living in real the world. As students have to acquire 6Cs of global competencies, citizenship, collaboration, communication, creativity and critical thinking, the school leaders must be able to understand, develop, and devise methods to facilitate the teachers to develop these in students.

Focusing on distributed leadership and school improvement, the stress is on the need for clear, effective and strong leadership and management in schools if they want to nurture pupils successfully. School leadership is as important as classroom teaching to influence pupil learning. This conference proposes to look into various leadership styles/issues/forms prevalent in India and the following major objectives.

- to explore various prevalent innovative and unique leadership practices in the schools of India
- to address challenges and constraints faced by Head Teachers/Administrators, their efforts and strategies to overcome them
- to highlight efforts of the Head teachers to integrate various issues viz. ICT, generic concerns etc., to improve working conditions in school, staff motivation and commitment
- to document various aspects of prevalent leadership practices presented in the conference.

**OBJECTIVES OF THE CONFERENCE**

**THEMES**

The mode of presentation (oral, video documentation or poster) needs to be specified. Abstract (250-300) words should reflect objectives, methodology, major findings, results and discussion. Keywords, Introduction, Aim/Objectives, Hypothesis (if any), Methodology/Procedures, Result and Discussion, Conclusion and Implications of the study and Acknowledgement (if any)

*Case Studies and practices can also be submitted in the form of articles.

References (APA 6th edition) format to be followed.

The paper(s) should be emailed to ncsl2020dte@gmail.com

**ABOUT US**

The Department of Teacher Education

Teacher Education is the most crucial input for improving the quality of school education since the policies prepared for schools are to be implemented by the teachers. The NCERT, therefore, addresses this task of formulation and organization of teacher education programmes both pre-service and in-service. The Department of Teacher Education (DTE) focuses on research, development of materials, capacity building of teachers and teacher educators, academic support to the centrally sponsored institutions of teacher education like DIETs, SCERTs, CTEs and IASEs; promotion of innovations and experiments in teacher education & school education and organization of extension programmes.
