I would like to thank you for providing this facility for downloading textbooks online. My son has **borderline cerebral palsy with low vision**. He is now easily able to read the text by enlarging the font size. It is also easier for him to prepare his notes now.

My son is in class 10. We have been making use of this facility offered by NCERT since class 9. May be you at NCERT could make more children with special needs aware of the benefits of downloading books, enlarging font size & making notes by copy - pasting the material.

I am impressed by the interest you all have taken in my request.

Dr. Neelam Sodhi
