

PRESS RELEASE

New Delhi, 15 June 2026

NCERT is ensuring adequate supply of its new textbooks through its vendor network and own sales counters across different regions, NCERT's online sales portal (www.ncertbooks.ncert.gov.in), various e-commerce platforms, and through its newly established Strategic Distribution Centres (SDCs) in collaboration with the Central Warehousing Corporation (CWC).

A new curriculum based on the National Education Policy (NEP) 2020 has rolled out. And, based on it, books for different stages are being published in a graded manner. This year, more than 90 lakh Grade 9 textbooks of nine subjects have been published and made available throughout the country, except for Social Science, which is almost print-ready and will be out very soon.

Due to this transition to a new curriculum, temporary localised gaps in supply may occasionally arise. However, NCERT is closely monitoring the situation and continuously augmenting supplies to ensure availability across the country.

For further information, please contact Head, Publication Division at pd.ncert@nic.in or the Chief Business Manager at cbm.ncert@nic.in.
